

SUPERIOR INSULATION & DURABILITY

Backed by years of innovation and experience, the Savannah Series offers superior insulation capabilities with the promise of long-lasting durability. We've carefully designed every detail of the window to meet or exceed industry standards and to offer the highest quality performance possible. You can purchase our windows with peace of mind knowing they'll last.

1. BOTTOM SASH INTERLOCK

Our innovative bottom sash interlock ensures a tighter seal helping to reduce drafts and decrease your energy bills. Provides structural strength during heavy wind loads by locking the sash in place.

2. Q-LON COMPRESSION GASKET

Our Q-lon, memory foam, compression bulb-seal gasket is the most energy-efficient weatherstripping currently used in the industry today. It adds barriers and diversions to help prevent water infiltration and drafts.

3. 5 DEGREE SLOPE SILL

Our carefully designed slope sill is the optimal angle for water runoff and to prevent air infiltration.

⑥

4. R5 VYFOAM™ IN FRAME & SASH

Our R5 foam-filled frame and sash insulation increase thermal efficiency, increases structural integrity, dampens sound, and reduces air infiltration.

④

5. MAGNETIC SEAL

Our freezer-magnetic insert compresses the sash to the frame creating a tighter seal, reducing the possibility of leaking and drafts.

6. DOUBLE-WALLED SILL DAM

Tight-mortised cut, double-walled, sill-dam extends inside the jamb, eliminating the need to caulk an open seam.
